Not Enough Members Have Signed Pledge to Vote Against Senate Statehood Amendments to Defeat Them.

REPUBLIC SPECIAL.
Washington, Feb. 12.—The Republican House managers are still busy taking a silent vote in the Republican membership on the statehood bill. A pledge is being circulated, signers to which agree to support the House bill against the Senate amendments. Late to-day a sufficient number of signers to constitute a majority of the House members who voted against the resolution passed in caucus last week several have weakened. But enough are standing out to halt progress on the bill, and it is now in the House Committee on Territories pending the completion of the poll.

THIRTY CUSTOMS OFFICERS AT THE FAIR ARE RELEASED.

Decrease in Work Causes of Dismissal—General Service Company Reduced in Deliveries.

Thirty customs officers were released from duty last week at the World's Fair by Charles E. Gallenkamp, Surveyor of Customs.

The dismissal of the men is due to a decrease in the work of checking the exhibits of foreign countries, as nearly all this work has now been completed. Judge Gallenkamp expects to withdraw the rest of his force, 160 men, within a few weeks.

The General Service Company, which has been engaged with the customs since 1893, is now 1200 cases behind the packers, as the concern is now 1200 cases behind the packers.

Last week the company moved away 2000 cases while the packers prepared about 4000 cases for shipment.

During previous weeks the difference was even more noticeable. The company worked 10 hours a day, while the packers worked 12 hours, making both unable to permit men to work steadily through out the day.

SUCCESS FOR NEW SOCIETY.

Association of State Teachers of Mathematics to Be Permanent.

REPUBLIC SPECIAL.
Kirksville, Mo., Feb. 12.—The committee appointed at a recent meeting of the State Teachers' Association of Columbia to draft a temporary constitution for an organization to be known as the Missouri Society of Teachers of Mathematics and of Clay Harvey of the State Normal School, the city chairman, has prepared the temporary constitution, which it has submitted, with a brief statement, to the members of the mathematics section of the association.

If the members publish a journal, to be known as School Science and Mathematics, permanent organization will be effected under the new constitution, which will be used at least once each year in connection with the meeting of the State Teachers' Association. At the meeting to be held in Columbia on May 6 a permanent constitution will be adopted.

More than 100 teachers have signed their intention to become members of the new organization, and the committee is confident that a permanent structure will be a success from the initiation.

Afraid of Strong Medicines.

Many people suffer for years from rheumatic pains and prefer to do so rather than take the strong medicines usually given them. Those who have had such relief from pain may be had simply by applying charcoal-tar liniment and without taking any medicine internally.

Reverend Amos Parker of the First Baptist Church, 11th and Locust, is chairman of the Liniment Committee.

He has been permanently cured by the free application of charcoal-tar liniment.

More than 100 teachers have signed their intention to become members of the new organization, and the committee is confident that a permanent structure will be a success from the initiation.

RECORD PRICE FOR LAMBS.

Choice Natives Bring \$7.75 at Kansas City.

REPUBLIC SPECIAL.

Kansas City, Mo., Feb. 12.—The estimated run of sheep here to-day was less than that of the same day last week and less than the estimate for the same day last year. The supply was greatly reduced by the extreme cold weather delaying live-stock traffic, and values were advanced everywhere by the strong demand.

Another useful invention, which is shown in company with the cooking utensils, is an electric iron.

REPUBLIC SPECIAL.

New York, Feb. 12.—Albert E. Leighton, who is 42 years old, is a prisoner in the East Fifty-first street station technically charged with violating the city ordinance relating to the carrying of concealed weapons.

According to the police, Leighton is the man who for some time has been sending letters to Miss Helen M. Gould, in some proposing marriage and in others asking her to be engaged as "head man."

In the man's possession was found a letter addressed to "Miss H. M. Gould, Fifty-first street, New York City." It read:

"Do you want me to return as head of your house? Answer to-morrow. Albert E. Leighton, 42, East 51st street."

Leighton was arrested to-day in the Fifty-first street.
